Gemstone Plus (Rich Tapestry & Oyster)

Keep the 2:2 ft stencil at the center of the grid.
Mark the vertical edges.

Keep the stencil diagonal & mark the
center of the stencil.

Do the same procedure for the upper & bottom edges
to get the hexagonal shape.

*Block (Stencil Background) colour to be same as the colour of Rich Tapestry or North Star stencil, respectively.

Gemstone Plus (North Star)

After proper drying of the base coat, make vertical gridding line
using chalk putty. - 3 ft from the right side of the wall.

Put the 1:1 ft stencil diagonally at the center of the gridding
& mark one square.

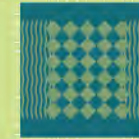

Similarly make another 2 squares on equal distance
on the grid. Do the paint application in the squares.

Do-it-yourself tips

Triad Plus (Diamante Dust)

Divide your wall into 4 parts.

Create the stencil in the middle two parts and texture
in the corner parts. Stencil should overlap the texture application
as shown in the image

Twintex Plus

Divide the wall into three parts. Middle part should be double in
size as compared to the corner parts.

Base coat application for both the textures
should be completed before the top coat application starts.

Infinutex 3D Plus

Start the Stenciling work after completion of
primer application.

For background colour and stencil, use only Asian Paints Royale
Luxury Emulsion. While applying the background colour, refer to
the standard Asian Paints complete system painting application
guidelines. While applying the stencil colour, do not add any
water to the paint. Use only genuine Asian Paints Stencils and tools.
